DETAILED ACTION

Allowable Subject Matter

5. Claims 1-42 are allowed.

REASONS FOR ALLOWANCE

6. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or suggest individually or in combination the following:

in the event that an operating task to be performed for a packet by the software component corresponds to an enabled task offload capability on the peripheral hardware device, and depending on the then current needs of the computer system, selectively offloading the operating task from the software component to the peripheral hardware device by sending a data packet to the peripheral hardware device, indicating that the peripheral hardware device perform the specified operating task, the operating task being a task that peripheral hardware device is capable of performing.

For these reasons claims 1, 11, 20, 22, 32-34 and 42 are deemed to be allowable over the prior art of record, and claims 2-10, 12-19, 21, 23-31 and 35-41 are allowable by dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on
